

Nokia GSM 1800 Project Rollout

São Paulo, Brasil

Client

Nokia do Brasil Ltda.

Value

US\$600,000

Completion

2001

Assignment

Program Management — Pre-construction

Bovis Lend Lease provided pre-construction services including radio frequency planning, site acquisition, site validation, technical site survey, line of sight confirmation, site design and permitting for the development of mobile telephone base stations in São Paulo.

Two hundred sites, a mixture of Greenfield towers and rooftop masts, were defined covering three major cities: Campinas, São Jose dos Campos and Osasco.
