

Trumpf Monterrey, MX

Client
Trumpf

Value
US\$4,200,000

Completion
2006

Assignment
Project Management

Bovis Lend Lease managed the construction of the first Trumpf production plant in México, located in the Apodaca Technology Park, Monterrey, Nuevo León.

The project scope included the parking area, loading docks, production area, service area, employee lounge, administration offices and showroom.

The production hall and showroom are one-story high, which equals the three floors of administrative offices.

A bridge, overlooking the showroom through a double height mezzanine, connects the office area to the showroom.
