Assignment

Construction Management

Bovis Lend Lease is managing the upgrade and modernization of the Peter W. Rodino Federal Building, supporting the General Services Administration's Design and Excellence Programs.

The scope of work includes repair/replacement of the HVAC system, domestic water distribution system, fire protection system, lighting and electrical systems, interior restoration, infrastructure work, exterior façade repairs and hazardous materials remediation.

Telephone, data networks and security systems will also be upgraded; the restrooms will be modernized in compliance with ADA and UFAS regulations.
